

## RIB MAKE CABLE FLOAT SWITCH

Cable Float Switch is mainly used for water, sewage water, Effluent water, Slurries, sticky or viscous liquids. Cable Float Switch has the technical advantages as the devices are for intensive uses and has a 70° working angle.

### HIGHLIGHTS :

- Specifically used for the automatic working of small pumps and cellar emptying pumps
- Efficient performance
- Sturdy construction

### SPECIFICATIONS

Feature	Details
Operation mode	Omnidirectional
Minimum S.G	0.75
Maximum pressure	1 bar
Maximum temperature	70°C
Protection index	IP 68
Electric characteristics	230 VAC
Cut-out power	5A ,10 A,16A
Micro Switch	SPDT NO+NC+COM POTENTIAL FREE
MOC	Copolymer polypropylene
Cable	PVC
Cable type	3 core, 3mtr, 5mtr, 10mtr
Float weight without cable	105 g
